

| Day       | Location | 9-10                                            | 10-11                                      | 11-12 | 12-1 | 1-2                                         | 2-3 | 3-4 | 4-5 |
|-----------|----------|-------------------------------------------------|--------------------------------------------|-------|------|---------------------------------------------|-----|-----|-----|
| Sunday    | Lab A    | Management of Gastrointestinal Diseases Lecture |                                            |       |      | Management of Gastrointestinal Diseases Lab |     |     |     |
|           | Lab B    | Hospital Pharmacy Lecture                       |                                            |       |      | Hospital Pharmacy Lab                       |     |     |     |
|           | Lab C    | Clinical Pharmacy-II Lecture                    |                                            |       |      | Clinical Pharmacy-II Lab                    |     |     |     |
|           | Lab 208  | Biochemistry-I Lecture                          |                                            |       |      | Biochemistry-I Lab                          |     |     |     |
|           | Lab 222  | Pharmacy Administration Lecture                 |                                            |       |      |                                             |     |     |     |
|           | Lab 422  | Clinical Microbiology Lecture                   |                                            |       |      | Clinical Microbiology Lab                   |     |     |     |
| Monday    | Lab A    | Management of Cardiovascular Diseases Lecture   |                                            |       |      | Management of Cardiovascular Diseases Lab   |     |     |     |
|           | Lab 322  | Chromatography & separation techniques Lecture  | Chromatography & separation techniques Lab |       |      |                                             |     |     |     |
|           | Lab 408  | Pharmacology –III Lecture                       |                                            |       |      | Pharmacology –III Lab                       |     |     |     |
|           | Lab 422  | Toxicology & forensic chemistry Lecture         |                                            |       |      | Toxicology & forensic chemistry Lab         |     |     |     |
|           | Lab 420  | General Microbiology & Immunology Lecture       |                                            |       |      | General Microbiology & Immunology Lab       |     |     |     |
| Tuesday   | Lab 408  | Pharmacology –II Lecture                        |                                            |       |      | Pharmacology –II Lab                        |     |     |     |
|           | Lab A    | Management of Pediatric diseases Lecture        |                                            |       |      | Management of Pediatric diseases Lab        |     |     |     |
|           | Lab B    | Clinical Pharmacokinetics Lecture               |                                            |       |      | Clinical Pharmacokinetics Lab               |     |     |     |
| Wednesday | Lab A    | Management of Respiratory diseases Lecture      |                                            |       |      | Management of Respiratory diseases Lab      |     |     |     |
|           | Lab 408  | Medicinal Chemistry –II Lecture                 |                                            |       |      | Medicinal Chemistry –II Lab                 |     |     |     |
|           | Lab 322  | Public Health and Preventive Medicine Lecture   |                                            |       |      | Drug interactions Lecture                   |     |     |     |
|           | Lab 420  | Physiology & Pathophysiology Lecture            |                                            |       |      | Physiology & Pathophysiology Lab            |     |     |     |
|           | Lab 224  | Biopharmaceutics & Pharmaco-kinetics Lecture    |                                            |       |      | Biopharmaceutics & Pharmacokinetics Lab     |     |     |     |
|           | Lab 208  | Physical Pharmacy Lecture                       |                                            |       |      | Physical Pharmacy Lab                       |     |     |     |
| Thursday  | Lab 208  | Biochemistry-II Lecture                         |                                            |       |      | Biochemistry-II Lab                         |     |     |     |

عميد الكلية

أ.د/سامح حمدى سرور

وكيل الكلية لشئون التعليم والطلاب

أ.د./ محمد محروس عمارة

منسق البرنامج

أ.م.د/ رانيا حلمي عبدالحميد
